### HOSE REELS CLASSIC

The Classic Hose Reel has been the standard of reliability for over a decade. This solid, all steel hose reel is preferred for general duty, automotive dealerships, and service garages. Proven performance and reliable operation.

### HOSE REELS - ENCLOSED HOSE REELS

- \* All steel cabinets have high quality, powder coated finish providing corrosion resistance
- \* Cabinet design provides smooth and easy operation: prevents hose pinch and reduces wear when pulling from any angle
- \* Simple installation and serviceability
- \* Cabinet design ties all reels in the bank together to form one complete rigid structure

#### UNIT OF MEASURE

gallon  
quart  
pint  
liter

#### FLOW RANGE

0.26 - 8 gal/min  
(1-30 l/min)

#### MAX PRESSURE

1450 psi  
(100 bar)

#### WEIGHT

4 lb  
(1.80 kg)

#### RECOMMENDED FLUIDS

Oil, transmission fluid, hydraulic fluid, and antifreeze

## CONTROL HANDLES WATER BASED FLUIDS

\* Reinforced polyamide body and stainless steel valve mechanism  
 \* Ergonomic-grip  
 \* Includes brass inlet swivel 1/2" NPT(F), flex-90 extension and a 1/4 turn manual tip

### FLUIDS

\* Anti-freeze (Glycol)  
 \* Windshield wash solution  
 \* Water

### MARKETS SERVED

\* Car and truck dealers  
 \* Fast lube and maintenance shops  
 \* Fleets

## FLUID INVENTORY CONTROL TM CONTROL

Standalone tank controller with 4 channels capable of controlling up to 4 different tanks or fluids. Each channel can connect to a solenoid valve, remote alarm or strobe light.

The TM Control can be used as a high or low-level control to prevent overflow, or as a pump shutoff to prevent the pump from running dry and allowing air to enter the system.

## PISTON PUMP LIGHTWEIGHT DOUBLE WALL OIL DISPENSE TANK PACKAGES

### Light Duty Applications

• Low volume, small service centers

### Medium Duty Applications

• Low to medium volume, small service centers

### Medium/Heavy Duty Applications

• Medium volume service centers

## USED FLUID EQUIPMENT SPILLGUARD

Spillguard drains capture used fluids and transfer to any bulk storage tank using a cam-lock kit and evacuation system

## USED FLUID EQUIPMENT TRUCK DRAIN AND DRAIN-PIT BOSS

The truck drain comes preassembled allowing for immediate use. Includes "used oil only" and "used anti-freeze only" decals for fluid identification. Connects to a used oil evacuation system using a cam-lock kit and evacuation systems.

The Pit Boss rolling pit drain captures used fluids. Specifically designed to easily roll on guide tracks in the user's pit and connect to a used fluid evacuation system.

The low volume truck drain comes pre-assembled allowing for immediate use. Connects to a used oil evacuation using a 3/4" cam-lock kit for anti-freeze or a 1" cam-lock kit for used fluid.
