

Brint,

I would like to compliment one of your company's excellent employees. Bo Wenrich. He provided timely and helpful advice regarding the type of Air compressor that would best fit our needs. He not only assisted me, but educated me with important information regarding the product we purchased including its features. I can see why he is your Regional Sales Manager. The customer care that he demonstrated to meet our deadline was excellent. I was personally impressed with his knowledge of Air compressors, electronics and electric in general. He also impressed PostcardMania with how he made himself available to answer any questions from me or my team. Bo was extremely attentive and listened to all my concerns with a great deal of patience. I appreciate all the hours of service he provided on this project. Such service builds great working relationships. I can see why Bo is an asset to your company.

Please feel free to use PostcardMania for a reference.

Sincerely,

Chris Miller
