

FEATURES

- Powder coated aluminum enclosure for environmental protection and noise reduction
- Single source of power
- Easily visible filter change and pressure gauges
- Factory-set relief valve
- Direct-driven
- Continuous, contactless, oil-free operation
- Simple installation
- Virtually maintenance-free
- Available for pressure or vacuum

APPLICATIONS

Any oil free application including:

- Wastewater aeration
- Soil remediation
- Conveying
- Drying
- Vacuum hold down
- Food processing

OPTIONAL ACCESSORIES

- Explosion proof motors
- Direct-coupled packages
- Specialty motors
- Motor starter
- Control panel
- PLC
- Central systems
