Hi Ian,

Bo tells me you are at the helm. Congratulations! Compressed Air is in good hands. I just wanted to say that I really appreciated your service team. After speaking briefly with Bo, he quickly knew I didn't know what I was talking about. I just want to say, he was kind in spite of my lack of knowledge. He took the time to educate me and offered ways we can save on installation (knowing how industrious we are) without passing judgement. I particularly appreciated him encouraging me to put pen to paper to send the kudos I mentioned to him about his crew.

Looking forward to learning more. Come and visit if you're in the neighborhood. Stay safe.

All the best,
